## CAREER OVERVIEW

I am a Software Engineering student currently looking for an internship opportunity in the areas of Mobile Application Development, Web Development, Software Quality Assurance (SQA), or Database Management. I enjoy designing and developing websites, building mobile applications, ensuring software reliability, and managing databases to support efficient system performance. I am eager to apply my knowledge, gain hands-on experience, and continue expanding my skills in these fields

## EDUCATION

### University Malaysia Pahang Al-Sultan Abdullah

Bachelor of Computer Science (Software Engineering) with Honours

- CGPA: 3.03
- Relevant Coursework: Software Engineering, System Analysis & Design, Software Design & Workshop, Web Engineering, Object Oriented Programming, Software Testing, Software Quality Assurance, Computer Game Programming Software Evolution & Maintenance, Data Analytics and Visualization
- Year: Expected Graduation August 2026

### Kelantan Matriculation College (Two-Year Programme)

#### Program Dua Tahun (Jurusan Sains)

- CGPA: 3.54
- Muet: Band 4.0
- Relevant Coursework: Computer Science, Mathematics, Chemistry, Physics
- Year: August 2020 - May 2022

### Sekolah Menengah Kebangsaan Taman Kosas

Sijil Pelajaran Malaysia (2019)

---

## PROJECT INVOLVEMENT

### SmashZone: Badminton Court Booking & E-Commerce System (Web + Mobile App) – Final Year Project

- Developed a complete cross-platform solution consisting of a secure web system and mobile application that integrate real-time badminton court booking, e-commerce, online payments, reporting, and AI-powered demand prediction.
- Led full-stack development of both the web platform (Laravel, MySQL, HTML/CSS/JS) and mobile application (Flutter).
- Designed a unified backend using Laravel MVC with RESTful API endpoints consumed by both the web and mobile clients.
- Implemented an AI-based prediction module to forecast booking demand and product sales trends using historical usage data.

### ClassConnect – High School Learning System (Laravel, MySQL)

- Developed a web-based learning platform using Laravel, MySQL, JavaScript, HTML, CSS, and Bootstrap, supporting student, teacher, and admin roles.
- Implemented core features such as user management, courses, assignments, grading, and attendance with a responsive interface.
- Applied SQA practices including validation, secure workflows, and structured testing to enhance system reliability and performance.

Workshop Management System (Flutter, Firebase)

- Developed key modules for a Workshop Management System in the Software Engineering Practice subject using Flutter and Firebase.
- Collaborated with a team to design and implement core functionalities with secure role-based access and user workflow integration.
- Contributed to the Payment and Report modules, including payment processing, transaction tracking, and data visualization for generating clear and meaningful reports.

SKILLS AND LANGUAGE

Technical Skills

- **Laravel:** Strong in full-stack web development, system logic, and database integration.
- **Flutter:** Intermediate in mobile app development with role-based access and Firebase integration.
- **MySQL:** Skilled in writing queries and managing relational databases.
- **Firebase:** Experienced in configuring and using Firebase for mobile back-end.
- **HTML & CSS (Bootstrap):** Able to create responsive, clean web interfaces.
- **Figma:** Proficient in designing intuitive UI/UX for web and mobile.
- **Java:** Familiar with object-oriented programming and basic app development.
- **Unity (2D):** Knowledgeable in creating interactive 2D games

Soft Skills

- **Teamwork**
- **Time Management**
- **Adaptability**
- **Eager to Learn**

Languages

- **Malay:** Native
- **English:** Proficient

ACTIVITIES

Sport (SUKFAC)

- Participated as a player and served as a committee member organizing the team.
- Developed teamwork, communication, and adaptability by collaborating with diverse groups.
- Gained leadership and coordination experience through training sessions and match management.

Sport (SUKOM)

- Entered as a player, competing in inter-faculty sports events.
- Served as a medic, providing medical support during training and matches.
- Enhanced teamwork, communication, and adaptability through consistent team engagement
